 Montréal, Canada

SUMMARY

Mission-driven frontend developer with over 5 years of experience in education and social services. Proficient in HTML, CSS, JavaScript, and modern frameworks like React, and dedicated to translating design concepts into responsive and intuitive interfaces. Currently busy creating a curriculum for high school students to introduce them to tech and promote early engagement.

PROJECTS

Sean's Legacy Project

Jan 2023 - Apr 2023

Lead Frontend Developer - TechFleet

- Led a team of 5 developers for the first 3-month phase of **Sean's Legacy Project** in an agile environment, organizing team meetings, managing task tickets, and maintaining clear and effective communication with the cross-functional team and client.
- Collaborated with the design team to select an appropriate design system, and customized Ant Design to align pixel-perfect with their specifications and branding guidelines.
- Established the tech stack for the project, utilizing Next.js and Firebase to ensure efficient development and seamless user experience.

Beela

Sep 2022 - Nov 2022

Frontend Developer - TechFleet

- Collaborated within a cross-functional team alongside 4 developers to create a website redesign for **Beela**, utilizing Next.js, Bootstrap, SCSS and Mailchimp Marketing API.
- Migrated all pages from HTML and CSS code to React reusable components, fulfilling the client's requirements.
- Created comprehensive technical documentation using Notion to enhance team efficiency and ensure seamless communication with future phases and the client.

myFlix

Oct 2021 - Jan 2022

Full Stack Developer - Personal Project

- Developed a **full-stack web application** leveraging MongoDB, Express, React, and Node.js (MERN) technologies.
- Built a **RESTful API** in Node.js with Express to handle server-side functionalities and designed data schemas using Mongoose to ensure data consistency and validation.
- Implemented user authentication using JSON Web Tokens for secure user login.

EDUCATION

Certificate: Full Stack Immersion (MERN) - CareerFoundry

Aug 2021 - Mar 2022

Certificate: Intro to Frontend Development - CareerFoundry

Jun 2021 - Jul 2021

BA: Psychology and Health Studies - University of British Columbia

Sep 2013 - May 2018
